SURVIVAL KIT SUPPLIES

Being prepared means being equipped with the proper supplies you may need in the event of an emergency or disaster. Keep your supplies in an easy-to-carry emergency preparedness kit that you can use at home or take with you in case you must evacuate.

What Do You Need In A Survival Kit?

At a minimum, you should have the basic supplies listed below.

- Water: one gallon per person, per day (3-day supply for evacuation, 2-week supply for home), Food: non-perishable, easy-to-prepare items (3-day supply for evacuation, 2-week supply for home), Flashlight , Battery-powered or **hand-crank radio** (NOAA Weather Radio, if possible), Extra batteries, First aid kit, Medications (7-day supply) and medical items
- Multi-purpose tool, Sanitation and personal hygiene items
- Copies of personal documents (medication list and pertinent medical information, proof of address, deed/lease to home, passports, birth certificates, insurance policies)
- Cell phone with chargers , Family and emergency contact information, Extra cash
- Emergency blanket, Map(s) of the area

After you gather those basic supplies for your kit, add unique things each member of your family may need, such as:

- Medical supplies (hearing aids with extra batteries, glasses, contact lenses, syringes, etc)
- Baby supplies (bottles, formula, baby food, diapers), Games and activities for children
- Pet supplies (collar, leash, ID, food, carrier, bowl), Two-way radios, Extra set of car keys and house keys, Manual can opener

Depending on the types of disasters that are common where you live, also consider adding these things to your kit:

- Whistle, N95 or surgical masks, Matches, Rain gear, Towels, Work gloves,
- Tools/supplies for securing your home, Extra clothing, hat and sturdy shoes,
- Plastic sheeting, Duct tape, Scissors, Household liquid bleach, Entertainment items,
- Blankets or sleeping bags

**East Donegal Township has
a no burning ordinance.**

**No burning trash,
recyclables,
or yard waste.**

THIS IS NOT A GARBAGE CAN.

Please refrain from putting any trash, grass, leaves, liquids chemicals, oil, pool water or any objects in the storm drain. **The only thing that should go into the storm drain is rainwater.**

PERMITS

Most any kind of improvement made on your property, in your home and/or place of business requires a permit. Please contact the Township office prior to undertaking any improvements to your home, business, or properties.

MEALS ON WHEELS

Mount Joy, Marietta and Maytown residents can receive meals on wheels. A hot and cold meal will be delivered Mondays through Fridays to your home for a fee. You can choose if you want every day or just selected days. The meals arrive around 8:30 a.m. Clients are billed monthly for the meals received. There are no dietary restrictions. If you are interested call 717-653-5493 extension 226 and leave a message with your name and phone number. A scheduler will give you a call back. The local Meals on Wheels works with Lancaster County Office of the Aging.

**No batteries or devices
that contain batteries
in your trash or
recycling
cans**

Irresponsible battery disposal is causing fires.

Food Bank

The East Donegal/Conoy Christian Food Bank is located at 40 Coffee Goss Road, Maytown and is open Wednesday from 2:00pm to 4:00pm. Donations may be dropped off at the Township Office. Call Pat Vogel at 717-426-2360 with questions.

Coffee & Conversation Continues

Drop by for coffee.....and conversation. I'll supply the coffee and you bring the conversation. Anything you want to talk about is fine. The get-together is informal and there's no set agenda. It's an opportunity to talk about Township issues (or other topics) with me in person. The Coffee & Conversation sessions are scheduled to be held Tuesday, November 17, 2026, Tuesday, January 19, 2027, and Tuesday March 16, 2027. The sessions start at 7:30 AM and end at 8:30 AM. All meetings are to be held at the Township building.

"You bring the conversation and the coffee is on me"

Hope to see you there!

Scott Kingsboro –Township Manager

SNOW

When shoveling snow this winter please keep in mind that you may not put the snow from your driveway or sidewalk onto the road. If cars are parked along the roadside the plows might not be able to get through your road. When they do get through it is inevitable that there will be snow from the road that ends up on driveways. Wet heavy snow increases the chance of damage to mailboxes. Residents are reminded that damage occurring from plowed snow is the property owner's responsibility. Cars should not be parked in cul-de-sacs or on narrow streets until after the road has been plowed. If there is a fire hydrant on your property it should be cleared off for safety reasons. Snow should be cleared from sidewalks within 24 hours after the end of snow fall, sleet or freezing rain. Estimated plow routes are as follows: Main roads first followed by secondary streets, then developments. Alleys (single lane roads or streets) will be last.

DO NOT ATTEMPT TO PASS A SNOW PLOW FOR ANY REASON!

Compost Facility: Key Fobs Required

The compost facility in Mount Joy is **only** accessible with the purchase of a key fob. Applications for a key fob can be found on Mount Joy Borough's website or at the Mount Joy Borough office. The cost of the key fob is \$40.00 per year.

Please follow the directional signage and place all items in the designated areas. Separate Woody Waste (tree trunks, limbs, branches) from yard waste (leaves, green plants, garden waste). Tree branches must be less than 12 inches in diameter and less than 8 feet in length.

NO rocks, stones, grass clippings, tree stumps, trash, garbage, construction or demolition waste, painted wood, pressure treated wood, railroad ties, landscaping timbers or plastic bags for any reason. No smoking on the property.

Encourage Mailbox Maintenance in Your Township Before Winter

The U.S. Postal Service delivers more than 370 million pieces of mail each day, much of that arrives in a mailbox. USPS recommends inspecting, maintaining, and upgrading mailboxes to ensure important documents arrive and to help mail carriers deliver efficiently. Mailboxes need to be inspected to ensure they have not been damaged by wear and tear. According to USPS, some of the most common fixes include:

Tighten up: Check for and tighten any loose hinges on the door. Take care of any rusty or loose parts.

A fresh coat: Brighten up a rusty or peeling mailbox with a fresh coat of paint.

Stand securely: Make sure your mailbox post is secure and upright.

Be seen: Make sure your house numbers are clear, visible, and easy to read. Replace any missing or faded numbers.

Clear the way: Make sure the area around your mailbox is free of debris or insect pests.

Residents should report mailbox tampering or vandalism to the Postal Inspector at 1-877-876-2455.

East Donegal Township is divided into three districts for voting. The polling locations are:

- **Maytown:** East Donegal Township Building, 190 Rock Point Road, Marietta.
- **Maytown West:** Donegal Presbyterian Church, 1891 Donegal Springs Road, Mount Joy.
- **Springville:** Calvary Bible Church, 629 Union School Road, Mount Joy.

Your polling location is determined by the district where you reside. Not sure where to vote? Call 717-299-8293 or go to www.pavoterservices.state.pa.us/Pages/Polling.

Deadline: October 31st
Prizes up to \$500

GENE CAPALDI

LENS ON LITTER PHOTO CONTEST

An annual statewide photography contest rewarding amateur photographers who snap unusual or eye-catching images of litter across the Commonwealth, bringing awareness to how litter threatens public health & safety, scenic beauty, property values, the environment and wildlife.

Prizes (adult & student categories) & **NEW** Before & After (adult & student categories):
\$500 first-place; \$250 second-place & \$100 third-place;

APPLIANCE/TIRE PICKUP OCTOBER 26 & 27 ON YOUR TRASH DAY

Tags for appliances and tires are purchased at the Township Office. Appliances (washers, dryers, stoves, dishwashers, freezers, refrigerators, dehumidifiers, air-conditioners, hot water heaters, etc.) are \$15.00 each. Tire tags are \$5.00 each. Rims are \$5.00 each. When purchasing a tag, you will need to give your street address and identify the item you are putting out for pickup. Appliances/tires must be out the night before the designated pickup date.

**Batteries are no longer
accepted at the Township**

Beginning in 2027, all yard waste and leaf pickups will be every other week on Mondays unless noted on the calendar.

Example would be the week of Memorial Day all trash would be one day late and all yard waste would be picked up on Tuesday, June 1st.

Trash/Recycling:

Place trash & recycling curbside the night before your pickup day.

Place trash/recycling where is easily visible for pick up.

Trash is limited to **three** bags. No loose trash!

Each bag maximum 32 gallon; weighing 30 lbs. or less.

Additional bags must be tagged as **extra trash (\$1.00)** each.

Bags over 30lbs. must have bulk item tag (\$5.00) each.

Larger items must have bulk item tag (\$5.00) each. Call to find out if item is acceptable.

Appliance (\$15.00) / Tire (\$5.00) / Rims (\$5.00) pick up is twice a year.

Yard waste is to be in the brown bags with green tags (\$2.00) each (see calendar)

No Construction debris is permitted in trash.

No yard waste is permitted in trash during yard waste season.

No burning of trash or yard waste permitted at any time.

Tags for extra trash, bulk items, tires, appliances, yard waste are purchased at the Township building.

Glass items need to be wrapped & taped to prevent injuries!!

*Notes on Recycling:

There is a dumpster for corrugated cardboard located at the Township Building. If your corrugated cardboard does not fit into your bin take it to the cardboard dumpster.

Recycling is mandatory for everyone in the Township including farms and businesses.

If it isn't on the list do **NOT** put it in the bin.

Do not put cardboard out if it is raining or windy.

Do not put plastic bags in the recycling bin for any reason.

continued on next page

continued from page 4

Recycle plastic bags at the grocery store.

Do not put recycling out on windy days.

***For as much as we want you to recycle, we have to say please don't contaminate the recycling process: when in doubt, throw it out.**

If your trash or recycling is missed call the office 717-426-3167. If you are calling after hours leave a message. If your trash was not out when the trucks went by it is NOT considered missed.

Tips to Recycle Right

Remove lids & discard them

No plastic bags in the bin (recycle at the store)

Items must be empty & rinsed out

No other materials than listed are to be put in the bin:

Corrugated Cardboard

Dry packing & shipping boxes with fluted sheet.

Plastic Bottles & Jugs

Only plastic with a neck.

Metal Food & Beverage Cans

Food & beverage cans (aluminum or tin).

Glass Food & Beverage Bottles & Jars

Clear, green & brown glass bottles & jars.

Flatten cardboard (no grease or food on boxes, no wet boxes)

This is an illegal dump along Long Lane. It costs money and time for the road crew to clean up the area and dispose of the trash. The road crew found information and handed it over to the police. They were able to locate the person responsible for dumping the trash.

This item was found in the cardboard dumpster. Reminder: the cardboard dumpster is only for corrugated cardboard. The cardboard is to be flattened.

This picture was taken at the compost site. The green tags are East Donegal's. When the bags were opened there was trash in some of them. This contaminates the compost. Yard waste bags are to be used for compostable vegetation, leaves, yard waste, etc.

These photos show contaminated recycling bins. Please do not contaminate the recycling process.

When in doubt, throw it out! Trash collected goes to the Waste to Energy Facility to produce electricity for Lancaster County.

HOUSEHOLD HAZARDOUS WASTE
1299 Harrisburg Pike • Lancaster, PA 17603
www.lcswma.org • 717- 397-9968

Trick or Treat night will be held on Saturday, October 31st; 6pm – 8pm.

The recommended date and time for Trick or Treat is done for the safety of those participating and does not prohibit or prevent residents from conducting Trick or Treat activities on other dates or times. This recommended date and time will not be changed, altered, or cancelled, for any reason. Participation in Trick or Treat is voluntary and as such participants should make decisions based on their personal comfort level, including the possibility of inclement weather.

Feral Cats

Supporting or starting a TNR program ensures that while the cats are fed, their numbers are controlled, and their health is monitored. It's a compassionate, sustainable solution that reduces long-term dependence.

Trap-Neuter-Return (TNR) is the most effective way to control feral cat populations humanely. By trapping, neutering, and returning the cats to their colony, you help prevent future litters and improve the overall health of the cats. Many communities have TNR programs that need volunteers to help with trapping, transportation, or post-surgery care.

Consider supporting local animal shelters or rescue groups that work with feral cats. Your donations can help cover the cost of veterinary care, food, and other resources necessary to manage feral cat colonies responsibly. Do NOT just drop cats off anywhere thinking that someone else will take care of them or they can take care of themselves.

SPAY/NEUTER CLINIC

Helping Hands for Animals offers low-cost spay/neuter clinics at our facility, but you will need to call for an appointment. Clinics are designed for feral, free roaming and community cats as well as unconfined pet cats. All cats will be spayed or neutered, given rabies and FVRCP (distemper) vaccinations, treated with Revolution (flea, roundworm / hookworm and

ear mite treatment) and ear tipped for identification as fixed animals. **AN APPOINTMENT IS NECESSARY.** Appointments can be made by calling (717) 687-7297.

Be Prepared, Save a Life: Signs of Heart Attack

Heart disease is the leading cause of death worldwide and the most common cause of heart attacks. However, a heart attack doesn't always look like the dramatic "chest clutching" moment seen on television. Knowing the warning signs of a heart attack and when to get help is life-saving knowledge.

What to look for:

Chest Discomfort – Most people who have a heart attack feel discomfort in the center of the chest that lasts more than a few minutes, or goes away and then returns. It may feel like an uncomfortable pressure, squeezing, fullness or pain.

Upper Body Pain – Symptoms also can include pain or discomfort in one or both arms, the back, neck, jaw, or stomach.

Shortness of Breath – This can happen with or without chest discomfort.

Other Symptoms – Other possible signs to watch for include breaking out in a cold sweat, nausea, lightheadedness, profound fatigue, or an unusually rapid or irregular heartbeat.

If you or someone nearby exhibits these signs, do not wait. CALL 911 immediately. Minutes matter.

School Bus Safety

As students are back in school and traffic increases on our roads, the Municipal Emergency Services Authority of Lancaster County (MESA) reminds drivers to stay alert and follow traffic laws to keep your community safe:

Watch for Children – Be especially vigilant in school zones and during peak morning pick-up and afternoon drop-off hours, as children may cross unexpectedly.

Slow Down for Yellow Flashing Lights – Yellow flashing lights indicate a bus is preparing to stop to pick up or drop off children. Motorists should slow down and prepare to stop.

Stop for Red Lights – When a school bus extends its stop arm and flashes red lights, drivers traveling in ALL directions must stop at least 10 feet away.

When It's OK to Go – Motorists following or traveling alongside a school bus must stop until the red lights have stopped flashing, the stop arm is withdrawn, and all children have reached safety.

Violating school bus stopping laws carries stiff penalties, including driver's license suspension, points and fines — but most importantly, staying alert and following bus stop laws keeps children safe.

Under the Pennsylvania Governmental Immunity Statute, the (Borough/Township/Authority) has limited legal responsibility for sewer and water backups into buildings. Additionally, a backup may be caused completely by an issue in your part of the sewer/water system. You should contact your homeowners insurance agent and make sure that you carry coverage for sewer and water backup under your homeowners policy.

STORMWATER

Stormwater is one of the biggest threats to water quality in the United States. It can transport trash, bacteria, heavy metals, and other pollutants through storm sewers and into local waterways. Heavy rainstorms can cause flooding that damages property and infrastructure. EPA, states, and municipalities have made progress protecting our nation's waters through the implementation of the Clean Water Act (CWA). Green infrastructure may be used to comply with CWA requirements, treat stormwater, improve water quality, and mitigate flooding while also beautifying our communities.

In the past communities have used systems of gutters, pipes, and tunnels to quickly carry stormwater downstream to wastewater treatment plants or untreated to local water bodies. This would prevent stormwater from being managed at its source. Existing storm sewer infrastructure in many areas of the United States is aging, and its capacity is often not big enough to manage the increasingly large volumes of stormwater flowing to it.

EPA encourages municipalities to implement green infrastructure to manage wet weather. EPA aims to assist communities while they plan, install, maintain, and seek funding for green infrastructure by providing online resources, tools, and webinars. EPA also offers funding and technical assistance opportunities to plan, design, and implement green infrastructure projects that improve water quality, reduce flooding, and contribute to other public health and community goals.

What Is Green Infrastructure?

As defined by the Clean Water Act, the term green infrastructure means the range of measures that use plant or soil systems, permeable pavement or other permeable surfaces or substrates, stormwater harvest and reuse, or landscaping to store, infiltrate, or evapotranspire stormwater and reduce flows to sewer systems or to surface waters. Green infrastructure uses Filtration, Infiltration, and Evapotranspiration to treat and soak up rainwater where it falls. It can deliver multiple environmental, social, and economic benefits beyond stormwater management alone. Terms such as nature-based solutions, green stormwater infrastructure, and low-impact development are also used to describe green infrastructure installations, and there is overlap between these concepts. When green infrastructure systems are thoughtfully designed to fit the site-specific, local, or regional needs of the community and environment, they can provide cleaner air and water, protect against flooding and excessive heat exposure, provide diverse habitat, and create beautiful green spaces for all to enjoy.

DEP Reminds Pennsylvania Residents to Test Homes for Radon

The state Department of Environmental Protection (DEP) is encouraging Pennsylvanians to test their homes for radon during Radon Action Month, bringing public awareness to a very serious health hazard.

"Radon is the second-leading cause of lung cancer after smoking in the United States, and is a serious concern within the Commonwealth, but it is also very easy to protect yourself and your family from this naturally occurring gas," said DEP Secretary Jessica Shirley. "January is a great month to pick up a test kit from the local hardware store, put it on the lowest floor of your house, and find out if your home has radon. Radon test kits are also at many home improvement and hardware stores and typically cost \$20-\$30.

Even homes that have mitigation systems installed should test their homes every two years.

Permanent radon mitigation systems typically cost between \$800 and \$1,200 and require minimal maintenance. A list of state-certified radon contractors, labs, and testers is available on [DEP's website](#). The public is encouraged to call DEP's Radon Division at 717-783-3594, or the Radon Hotline at 800-237-2366, for help with interpreting their test results and what follow-up action may be necessary.

Maytown Historical Society

The Maytown Historical Society has recently received a Samuel Quest Tall Case Clock donated by Karen Terry-Steckbeck, and her husband, Pete.

The Samuel Quest Tall Case Clocks were made in Maytown around 1815. This particular one, named "The Grand Terry", has been in the Terry family for many generations and is a spectacular addition to our archive collection and museum display!

We welcome you to stop by the museum to see our new addition and would also like to "Thank" Karen and Pete for their generous donation.

MAYTOWN HISTORICAL SOCIETY

The Maytown Historical Society was founded in 1985 to help preserve the history of Maytown and the surrounding areas.
